METAL CUTTING CIRCULAR SAWS

- **Saves Time and Money.**
Less than 6 seconds to cleanly cut 4" x 1/4" mild steel.
No Milling or de-burring with near-surgical dry-cut technology.
- **Cuts a Varitey of Metals.**
Cuts mild steel, stainless steel and aluminum as easy as cutting plywood.
- **Makes the Worksite Safer.**
With the built-in chip control system, chips and sparks are all but eliminated.
- **UL Certification.**
Tested to meet or exceed UL 745 standards.
- **Cool-to-the-Touch.**
No waiting for your workpiece to cool down like with torch cutting. Just cut it and handle it.
- **Increase Productivity.**
Lightweight and portable with versatile beveling models.

Includes mild steel blade, safety goggles, earplugs and carrying case.
Part # CW5249.

SteelMax™

METAL CUTTING BLADES

SteelMax™ metal cutting saw blades are the finest blades available for the professional fabricator and metal-worker. You simply won't find a longer lasting, higher performing or cleaner cutting blade anywhere! Blades are available for clean and cool cutting of mild steel, stainless steel and aluminum and are designed specifically for the SteelMax 7 1/4 inch metal cutting saw. 7 inch SteelMax blades are also available to fit competitor saws to increase their efficient cutting of mild steel, aluminum and stainless steel.

7 Inch and 7 1/4 Inch Metal Cutting Saw Blades

PART #	APPLICATION
CW5250	7.25" Mild steel cutting
CW5251	7.25" Aluminum cutting
CW5252	7.25" Stainless steel cutting
CW5253	7" Mild steel cutting
CW5254	7" Aluminum cutting
CW5255	7" Stainless steel cutting

*For use with Metal Cutting Saws only!

7 1/4" Metal Cutting Saw w/Beveling Part # CW5249

Features

Up to a 45° beveling capability, powerful 1320 watt motor, 3500 rotations per minute, weighs 13 pounds, blade guiding arrows, 7.25" blade diameter, adjustable depth of cut up to 2-1/4", 20mm arbor bore, unique cover to control chips and sparks, retracting blade guard for blade protection and user safety.
